

Nancy Wild Medal Classes

The **NANCY WILD MEDAL SERIES** was created by Lake Oswego Hunt in honor of Nancy Wild, LOH's former Hunter/Jumper trainer, who lost a valiant battle with breast cancer in 2008. Classes in this series are offered at LOH, Quarry Ridge Farm, Quiet Rein Riding School, and Arbor Grove Equestrian ******(and Rolling Rock) shows throughout the year. These are special classes as all net proceeds from the Nancy Wild Medal classes are donated to the Providence Cancer Center for cancer research. You are contributing to a great cause while riding in a fun series. The Medal Series is designed to promote skills in developing riders similar to those in national hunter and jumper medal series. Top riders in the Hunter and Jumper series are invited to compete at the annual Nancy Wild Medal Finals held each September at LOH. The lead prize for the winner of the Finals is provided by our Champion of the Hunt Sponsor, CWD (a gift voucher of \$1400). Top riders in the Futures classes are also invited to the Finals to compete for special prizes. ***2019 is the 11th anniversary of the Finals (September 14, 2019) and will be special!***

The Nancy Wild Hunter Medal strives to promote the basic equitation skills necessary to advance towards the national medal levels. Open to amateur riders of all ages competing at 2'9" (.85m) and below for the season (Sept-Sept). Ride-off in judge's discretion. Course during the series to be set at 2'6."

The Nancy Wild Jumper Medal is designed to promote the skills necessary to compete at a level equivalent to the USEF Talent Search Medal. Open to amateur riders of all ages competing at 2'9" (.85m) and below for the season (Sept-Sept.) Ride-off in judge's discretion. Course during the series to be set at 2'6."

The Futures class is judged on suitability, not timed, and allows qualifiers to compete in the September Medal Finals in a special class. Open to amateur riders of all ages competing at 2'3" (.70m) and below for the Nancy Wild season (Sept-Sept). Course during series to be set at 18"-2'.
